

cdc air sussension

Beitrag von „boutrosa“ vom 21. August 2007 um 03:36

Hi everyone:

I still have not received my touareg. They are saying that there was a short shipment on the transmissions for the v6 tdi. I think that I am here for November.

anyways

Whats your opinion on the cdc air suspension? Is it worth the money? I am not really interested in being able to change the height of the touareg. its a fun/ safe feature that may save under the touareg.

What about ride quality on rough roads? I am more interested on if it makes a difference in ride quality. I want a very comfortable ride but not a bouncing vehicle.

thanks
