

RNS510 & Rear Camera

Beitrag von „juma“ vom 20. Mai 2008 um 08:49

Hi,

[Zitat von ceramicax](#)

Hello Juma, thanks for your fast answer, yes the car is new Touareg 2.0 CANBUS System

OK, then it should be easy... 🤔 😊

You need the following parts:

Video-part 7L6 972 726 A and

control device 7L6 907 441 B.

Maybe you have to readjust the rearcam.

After all, the whole system has to be coded with the VAGCOM/VAS.

Hope that helps!
