

Touareg R50 front grill

Beitrag von „plamendr“ vom 26. Mai 2008 um 19:40

Does anybody have the original part number of the touareg R50 front grill? Does anybody sell this grill?

I went to my local dealer and we put the R50's chasis number and it comes one part number for the grill, but it is not written that is for R50 and I can not see it in etca program and doubt about it. That's why I put my touareg's chasis number and it came back the same part number as it appears for R50 chasis, but they are not the same... The dealer can not guarantee that if I order R50 grill with it chasis's number R50 grill will come.
