Apple News | Apple Releases iTunes 7.7.1

Thursday, 31st July 2008, 09:07 am

Apple has released iTunes 7.7.1 which includes fixes to improve stability and performance.

Use iTunes 7.7 to sync music, video, and more with iPhone 3G, and download applications from the iTunes Store exclusively designed for iPhone and iPod touch with software version 2.0 or later. Also use the new Remote application for iPhone or iPod touch to control iTunes playback from anywhere in your home — a free download from the App Store.

iTunes 7.7.1 includes fixes to improve stability and performance.

NOTE*: PwnageTool has been proven to work successfully with this version of iTunes.
