Akku geladen?

Beitrag von "Marianw8" vom 4. Februar 2010 um 21:55

Hi,			

if possible, write in english please...I can't understand the german words

Zitat von juma

Zitat von juma

Hi, no problem...your German is much better than my Romanian 🖤

How old is the battery?

I would try to recharge the battery with a charger and if the battery will brake down again, you can change the battery later. I would not change the battery right now, 'cause you do not know what the VW-mechanics did or did not...

Question was: if I can me with my hand?, as I have already bought the battery:),not to go to pay for labor at VW

Mfg Marian
