**Hello from Northeast US Touareg meet:**

**[Blockierte Grafik: <http://tm-techmark.com/touareg/group1200.jpg>]**

**edit: Why doesn't this show as an image?**

Hi spockcat,

I assume you entered the link, rather than uploading the file from your computer. So far uploaded image files (JPG, GIF, PNG) display automatically, whereas URL just show up as a link. The URL advantage is, that you can reference as many as you like within one post. Uploaded files, however are limited to just one per post.

Anyway, nice pic. 8 seems to be THE number for such Touareg meetings. But your scenery looks much nicer than ours looked like.

Regards

Heinz
