Heinz,

I used the IMG vB code tab at the top of the answer box. When I look at the post in the edit function, it shows the IMG tags.

I couldn't upload the image to your server as the size is too large for your limits.

We had 9 Touaregs show up. Unfortunately, one left before the ninth Touareg showed up. Plus we had 10 owners. But one married couple who own two Touaregs only drove one to the event.

Here is the photo of the ninth one in the same line after one left:
