

Paddle shift installation

Beitrag von „spockcat“ vom 25. März 2005 um 18:24

Thanks to Theresias, I was able to get the correct coding and make the paddle shifters function. According to the price list this was a 780 Euro option in 2004. This can be done for about 1/3rd that cost.

Please visit my installation page if you have any questions: [Paddle shift installation](#)
