Hallo miene name ist Allan und ich komme aus Schottland. Ist hier eine person wer kann english forstaining. Es-tut-mir leid aber mein deutsch ist schlecht. Was ich mochte ist auf english (side steps) aber nicht von volkswagen. 

Hi there in Scotland, greetings from the US. I believe that the things you are looking for are called running boards over here. I have not seen any except for the Porsche ones, but you might want to look at tregcentral.com or at Westin. Westin makes bull bsrd and other bright stuff for the Egg. Why don't you google or you might also take a lookmat the US ebay site for VW Touareg. I will poste info if I come across some. US forums for the Egg are vvvortex.com and <http://forums.clubtouareg.com> and you might want to do a search there.

Good luck and have fun with your Egg!
