Hi,

[Stef](#)

depending on your needs for power or the use you need/want a new car for you will have to decide to either wait for a V6 or buy/order a R5 now.

Anyway, as you can see in the questionnaire you posted in another thread you can see that many of the R5 drivers are more than happy with their engine(me as well)!!!

From my point of view the R5 is more than enough!

See you

M.B.

Hi Borko,

Are you using the car as your first car? I would use it daily and do 150 - 300 a day with it.

As playpingiron mentioned I a thinking tot by the R5 now and see if it pleases and otherwise sell it and buy the V6 instead.

I wait for some more comments, maybe someone knows more about the cost of the V6 and the final release time.

Thanks a lot for now and all comments welcome !!

Stef.
