Zitat von Stef

You should buy the Nivea Visage Cream, those blue metal boxes with a diametre of 12 cm and 3 cm high.

I am using this in all my cars with leather and have a great result with it. Most products for leather are also a kind of face lotion, but then in an other bottle.

It cleans the leather and keeps it soft and the leather keeps breathing.

(This is an onfo I got from a salesman in a company making leather cleaningproducts !!)

Stef, Du beliebst zu scherzen, hm!???

Nivea Creme fürs Leder? Dann riecht der Wagen nach nach Baby-Po. 😊
