

Experience 2006 Maun (Botswana)- Kapstadt exclusiv für Touareg-Freunde

Beitrag von „darkdiver“ vom 23. Februar 2006 um 21:14

Übrigens sind wir gut aufgefallen, ich habe folgende Email erhalten und gleich an VW weitergeleitet.

Dear Sir

I am based in Cape Town and saw two of you Touareg vehicles at the Cape Grace Hotel. I am very interested in the roof rack that they are using. In addition I have had extensive contact with Volskswagen SA regarding the tyre choice. I see that you are using Perrelli scorpions. In South Africa and Africa generally the 17" tyre is quite scarce. Do you have any advice on moving on to a 16" rim with a 75 rather than 65 profile. I would appreciate your comments.

We have also designed a mountain bike carrier that fits onto the Touareg external spare tyre fitting which is very effective and inexpensive. Would you be interested?

Regards

xxx
