

Service - Reset

Beitrag von „spockcat“ vom 22. August 2004 um 15:28

Oliver,

If you are talking about the variable service intervals that are determined by the computer, the Touaregs in North America do not have this option. But I believe it can be activated by the VAG-COM. I have seen this option mentioned here: http://www.openobd.org/vw/touareg_71.htm
