

# Cayenne Turbo brakes on a Touareg ???

**Beitrag von „stv951“ vom 27. April 2006 um 16:27**

Hello all,

Sorry but I don't speak German. ANYONE HILFE ???

I am new to this board, and I have a question for anyone who can help.

A friend of mine has a Touareg V6, and is interested in putting some nice red Cayenne TT calipers and disks on his car. Since these cars are quite similar, I was wondering if they fit straight on ?

Thanks for your help

Steve
