Zitat von Flemming-DK

Hi Alle 😊

Ich bin neu Hier und komme aus Dänemark.

I´m sorry that I write in English, but I need your help and expertise.

I´m planning to import a Vw Touareg from Germany to Denmark, but due to the very high taxes that the Danish Government takes to make the vehicle registered in Denmark, the car that I have to buy needs to be rather low in price.

I have tried to search Mobile and Autoscout to see where the start prices start for a R5 with manual gear, but it seems like that many of the advertisers in there are fakes and there for way to low in prices???

If I´m searching for a vehicle from ´03-´04 and with over 100.000 km on the tachometer, how much will I have to pay for a vehicle like that, and how do I look for those vehicles if Mobile and Autoscout are not to be trusted?? Hope for your help 😊

With kind regards Flemming

(I understand german - so answers in German are welcome) 😊

Dear Flemming,

you´re Welcome!

Hallo Flemming,

herzlich willkommen!
