

Welche Fahrzeugmodelle deutsche Autohersteller im Ausland bauen

Beitrag von „Stef“ vom 29. August 2004 um 10:14

And why isn't published with cars they produce in China ?

This seems to be a big secret and the makes still say these cars are made in Germany because the final quality control is done in Germany, but the cars are built in China !!

BMW and Audi are producing in China and not only for the local marked.
