

Eibach Federn on a V6TDI 2005

Beitrag von „salvatore“ vom 6. September 2006 um 09:51

Hello & welcome jms,

I have lowered my 06 V6TDI with the original VW sport suspension. I also use 19" rims and it should be lowered about 2,5 cm.

And I also did some body-work with the orig. design-package.

Have a look, maybe it's helpful.
