

Order 1 V6 TDI in Germany

Beitrag von „V6TDI“ vom 5. Oktober 2004 um 17:51

Hello,

Is it possible to order 1 V6 TDI in Germany (not only to your dealer, but in the VW system) ?
What is the delivery date ?

Best regards.

What is the VW System?

It is possible in the Web car configurator and in the dealer system.

At the moment, the delivery date is still unknown.

Kind regards.

Hello,

Also in Belgium "should" it be possible to order the V6TDI.

The only problem for the moment is that they can't give any delivery time yet.

For me the difference in price between the R5 and V6 isn't worth the money and I went for the R5.

Stef.

I ordered a V6 TDI at the VW dealer about two weeks ago (first official week to order).

My estimated delivery time is May 2005, other people in this Forum tell about first Quarter of 2005 as their delivery time.

VW dealers will probably get exact delivery times at the end of November.
