

Roof Bars - Die Dachreling

Beitrag von „prhim“ vom 13. Februar 2006 um 10:36

Excuse me for posting in English, but I wonder if anyone can give me the VW part number for the longitudinal roof bars (from the 2006 model) as shown in the German Touareg Brochure?

I'm specifically looking for the new bars that go along the roof (front to back) not across (left to right).

Thanks!

Matt
