

VW Individual Design Package

Beitrag von „jonee“ vom 2. April 2006 um 19:25

I understand German, but I'm not very good (at all) at writing it.

I ordered my V6 TDI with the VW Individual design package but I can't choose between silver or black.

Does anyone have pictures of a silver or black T with the VW Individual Design Package?

Thanks in advance.

(feel free to reply in german)

Thanks for the link Eric!

Any pics of a black one? or a shadow blue one?

F

Hi,

here is a black one: [\(click\)](#)

Love all
Serve all

Beitrag von „jonee“ vom 3. April 2006 um 12:48

Great, Thanks
(don't hesitate to send more)

Is it just me, or do you guys also think that the Design Package looks better on a silver Touareg?

I don't see much difference between a standard black T and a design package equipped black T.
I would prefer black if the lower part of the front and rear spoilers had chrome bars just as the

W12 has. But that's not the case.

Still looking for a shadow blue one. (And the VW car configurator pics are too dark according to me)
