From this forum: <http://forums.tdiclub.com/showflat.php?Cat=&Number=756558>

Dr. Helmut Endres, executive director of powertrain development for the entire VW Group has announced the new 2005/2006 VW PD-TDI Engine Line up:

Three Cylinder TDI - 1.4-liter turbo 75BHP

Four Cylinder - 2-liter nonturbo 74BHP,turbo 138BHP and 175BHP

Five Cylinder - R5-2.5-liter turbo 174BHP

Six Cylinder - V-6 killed off by in-line 5

Eight Cylinder - 4-liter V-8 270BHP

Ten Cylinder - 5-liter V-10 330BHP with a forthcoming 400BHP+ on the way

Anyone know more info? Is this true?
